NX CAD Foundation

The CAD Foundation course is intended to introduce Design and Parametric Modelling skills. The student will quickly gain knowledge of the NX interface and how to use it. They will learn how to analyse part data, about solid modelling and how to create a simple drawing.

We offer remote virtual training however, if you prefer training onsite the training facilities at TTL are state of the art, with an individual workstation for each student. A hard copy of the training manual along with a stationary bundle is included.

Topics:

- User Interface Introduction
- Part Analysis
- Sketching
- Solids from Sketches
- Edge Operations
- Datum Features
- Assembly Environment
- Assembly Constraints
- Wave Geometry Linker

Course Ref:	TTL1001A
Duration:	3 days
Pre-Requisite:	None
Onsite:	TTL, Haddenham
Virtual:	Remotely
