

TTL Training Solutions

NX

NX CAD Modelling Advanced

The CAD Modelling Advanced course is intended to look at the more advanced features of the sketch environment. The student will gain knowledge of creating complex surfaces driven by sketches and expressions and using these to create parametric solid models.

We offer remote virtual training however, if you prefer onsite the training facilities at TTL are state of the art, with an individual workstation for each student. A hard copy of the training manual along with a stationary bundle.

Topics:

- Advanced Sketching techniques
- Freeform Modelling
 - Creating sheets & surfaces
 - Sewing & thickening surfaces
- Advanced feature operations
- Modelling with Expressions

Course Ref: TTL1001B

Duration: 2 Days

Pre-Requisite: TTL1001A or 2 years CAD work experience

Onsite: TTL, Haddenham

Virtual: Remotely
