

# TTL Training Solutions

# NX

## NX CAM Milling Foundation

The CAM Milling Foundation course is intended to introduce the milling manufacturing environment. The student will quickly gain knowledge of the NX interface and how to use it. The student will learn how to create planar milling, contour milling and drilling operations. They will also be introduced to best practices to gain maximum efficiency and consistency in creating tool paths.

We offer remote virtual training however, if you prefer onsite the training facilities at TTL are state of the art, with an individual workstation for each student. A hard copy of the training manual along with a stationary bundle is included.

### Topics:

- User Interface Introduction
- Part Analysis
- The Operation Navigator
- CAD for Manufacture
- Creating tools
- Drilling
- Planar Milling
- Z Level Roughing
- Adaptive Roughing
- Fixed Axis Contouring
- User Defined Events (UDE's)

**Course Ref:** TTL1002A

**Duration:** 3 days

**Pre-Requisite:** TTL1001A

**Onsite:** TTL, Haddenham

**Virtual:** Remotely
