

TTL Training Solutions

NX CAM Turning Foundation

The CAMTurning Foundation course is intended to introduce the turning manufacturing environment. The student will quickly gain knowledge of the NX interface and how to use it. They will learn how to create OD & ID Turning, Centre Line and Grooving Operations. They will also be introduced to best working practices to gain maximum efficiency and consistency in creating tool paths.

We offer remote virtual training however, if you prefer onsite the training facilities at TTL are state of the art, with an individual workstation for each student. A hard copy of the training manual along with a stationary bundle is included.

Topics:

- User Interface Introduction
- Part Analysis
- The Operation Navigator
- CAD for Manufacture
- Creating tools
- Controlling Cut Regions
- OD & ID Turning
- Centre Line Operations
- Grooving
- Single Spindle Configuration
- Introduction to Planar Milling & Drilling Operations
- Vertical Turning Lathes/Centres
