

TTL Training Solutions

NX CAD Drafting Advanced

The CAD Advanced Modelling course is intended to give a better understanding of the Drafting environment. The student will gain a knowledge of the NX Drafting interface, how to use it and customisation at an advanced level.

We offer remote virtual training however, if you prefer onsite the training facilities at TTL are state of the art, with an individual workstation for each student. A hard copy of the training manual along with a stationary bundle is included.

Topics:

- Drafting Symbols
- Additional Dimensioning Functions
- Notes & Labels
- GD&T (Geometric Dimensioning & Tolerancing)
- Customisation
 - Create Drafting Templates
 - Create Drafting Standards
 - Create Custom Symbols

Additional module option:

(Additional 2 days)

- PMI (Product & Manufacturing Information)
 - Display PMI in custom views
 - Edit PMI Preferences
 - Create varying types of PMI dimensions
