

TTL Training Solutions

NX CAM Turning Advanced

The CAMTurning Advanced course is intended to look at advanced techniques in creating fixed axis and simultaneous milling toolpaths, in a turning environment. This will be across a twin spindle and dual channel configuration.

We offer remote virtual training however, if you prefer onsite the training facilities at TTL are state of the art, with an individual workstation for each student. A hard copy of the training manual along with a stationary bundle is included.

Topics:

- Twin Spindle Configuration
- B-Axis Turning
- Dual Channel Configuration
- 3-Axis Positional Milling
- Full Simultaneous Milling

Additional optional module:

- **Advanced Dual Channel with Synchronization Manager**
 - Understanding the Synchronization Manager
 - Up to 2 channel support
 - Dwell and synchronization markers

(Additional day)
